Annotation :

1. According to the Shipping Act, the charge items and rates in this table are executing in principle. But in reality, the charge rate is based on mutual consent between the parties.
2. Normal regulations:

- (1) The criteria units of charge in this rate table are listed below:
 - (a) The criteria unit of amount of money is the “New Taiwan Dollar (NTD)”.
 - (b) The criteria unit of weight is “metric ton”. One metric ton is equal to one thousand kilogram.
 - (c) The criteria unit of volume is “one cube meter”. One cube meter is equal to one metric ton.
 - (d) The “day” means the “calendar day”.
 - (2) The “revenue ton” means that the criteria of charge depend on the higher value between weight ton and measurement ton which is measured by the most length, the most width and the most height of volume of cargo.
 - (3) The cargo which is charged by ton will be charged basing on one ton. It will be regarded as one ton for the cargo which is less than one ton
 - (4) The cargo which is laden container devanning at terminal will be charge for the revenue ton of maximum volume or the maximum weight as the criteria of shipper. It means that 20 feet container and 40 feet container is equal to 25 tons and 50 tons, respectively. If the measured ton of cargo is more than the criteria, it will be charged by the measured ton.
 - (5) The charge will be negotiated especially for the operation of special work or cargo.
 - (6) All the rates on the table shall be levied an extra value added tax (VAT) 5%.
3. The common tariff is authorized by Official Letter NO. 1123306278 issued by Maritime and Port Bureau (MPB), MOTC on 28th December, 2023.
